## BEST PRACTICES FOR MISSION TEAMS

Local churches are the primary agents of God's mission in the world. Equipping mission leaders in your church catalyzes growing mission engagement in your community and the global community. This video-based small group study is designed to help your church's mission team/committee explore best practices for leading your church in mission. It was designed with the lay-led mission team in mind or anyone involved in leading a church in mission. The videos feature teachings from five different experienced mission leaders from ECO churches and include a variety of global church leader testimonies. The discussion guide provides a map for meaningful conversation and suggests additional resources. This course gives your team the time and opportunity to plan for and implement the best practices you are discussing.

### Participants

Church mission teams or committees

### Duration

Option 1: 6 one-hour meetings designed to be completed in conjunction with your regular team meeting by adding an additional hour of study time for 6 months

Option 2: You are welcome to go to at your own pace and customize the materials for your needs.

### Cost

\$15/person to have access to the videos and guide. You can register 1 person to facilitate your group and view the videos together, or each person can register and have individual access.

### How to Get Started
